

CALL FOR SATELLITE SYMPOSIA:

We would like to bring to your attention a call for satellite symposia for the International Conference on Network Science 2014, NetSci2014, to be held at the Claremont Hotel and the Clark Kerr Campus of the University of California, in Berkeley, CA, USA, from June 2 to 6, 2014.

Following the successful tradition of previous venues, **NetSci2014 will host a number of stimulating satellite symposia on June 2 and 3** as precursors of the main conference. These satellite events are shorter (one-day or half-day) meetings with a specific focus related to network science. All topics are welcome, but we would specifically support proposals on subjects like multilayer, interdependent, and temporal networks, data driven science, critical infrastructure, and computational social sciences. The organizers of a symposium will be entitled to 3 free registrations for NetSci2014.

HOW TO SUBMIT PROPOSALS:

We invite you to submit a proposal for a satellite symposium including title, topic (brief summary of 1–2 pages), and format (number of speakers, number of participants, length, preliminary program), and a preliminary list of speakers. **Submit proposals by email to: netsci2014satellites@gmail.com**

IMPORTANT DATES:

Deadline for proposals: January 15, 2014 (23:59 CET)

Notification of acceptance: February 28, 2014

INFORMATION CONCERNING THE SATELLITE MEETINGS:

Dates of the satellite symposia: **June 2 and 3, 2014.**

Location of satellite symposia: Clark Kerr Campus of the University of California.

Lecture halls will be provided free of charge. We expect to support at least **10** symposia.

Satellite organizers will be responsible for all aspects of the symposium including registration for the symposium and food/drinks during breaks. All satellite symposia will be **mentioned in the NetSci2014 booklet** as well as listed and linked on the conference website.

A **subdomain on the website of NetSci 2014** will likely be available upon request.

QUESTIONS?

If you have any questions, please do not hesitate to contact us via email: netsci2014satellites@gmail.com. You can also contact Prof. Yamir Moreno, Chair of Satellite Symposia of NetSci2014.
